**① Read the following, then answer the questions:****A. Choose the correct answer from a, b, c or d:**

1. (b) recycling      2. (C) important

**B. Answer the following questions:**

3. The rise in population means that there are more people on the planet to create waste.
4. Recycling helps to decrease the pollution caused by waste.
5. It reduces the need for raw materials so that the rainforests can be preserved.
6. No, because new lifestyle changes, such as eating fast food, means that we create additional waste that isn't recyclable.

**② Read the following, then answer the questions:****A. Choose the correct answer from a, b, c or d:**

1. (d) alive      2. (C) Animals

**B. Answer the following questions:**

3. Everything that is alive needs energy.
4. All animals get the energy they need from food.
5. Living things use food as fuel.
6. The sun's energy is very strong. It loses a lot of its strength by the time it goes into a plant. When we eat plants, we get more of the sun's energy than when we eat animals.

**③ Read the following, then answer the questions:****A. Choose the correct answer from a, b, c or d:**

1. (d) social media      2. (d) focus

**B. Answer the following questions:**

3. Yes, it is because Using social media too much will have a serious effect on young people's health. They will have bad eyesight and backache. They will go to bed late and don't have enough sleep.
4. Addiction to social media makes the youth have bad grades in studies. Many students who were excellent have become bad because they don't concentrate on studying.
5. Addiction to social media is not good for young people.
6. I advise them to stop addicting social media as it is bad for their health.
